

APPLICATIONS

The LEGION-AIRE® series of static and air handling troffers are designed for individual or continuous row installations in data processing areas, offices, schools, stores and libraries. Offered with a wide array of shielding media, to accommodate any lighting situation. The specifiers choice for high quality, energy efficient lighting.

SPECIFICATIONS

HOUSING: Die formed of 20 ga. cold rolled steel, rigidly fabricated, and electrically welded to insure true and perfect alignment.

SOCKET PLATE: Die formed of code gauge cold rolled steel, securely mounted and readily removable for socket maintenance.

REFLECTOR: Die formed of code gauge cold rolled steel, securely mounted to housing. Formed to optically correct contour to provide maximum efficiency, removable to access wiring without the use of tools. XTA-XTRALUME® energy efficient reflector available (see OPTIONS).

DOOR: Flush door, die formed of 19 gauge cold rolled steel, hinges from either side on concealed T-slot hinges and is secured in the closed position by positive locking lever latches allowing access to the interior without the use of tools.

ELECTRICAL: Thermally protected Class "P" Energy Saving Instant Start HPF 265MA-T8 and 460MA to 300MA-T5 electronic ballasts standard for multi-volt operation. Optional ballasts, voltages and frequencies available, consult factory. With Quick Wire Access Plate, permits wiring without opening fixture.

MOUNTING: Designed to integrate into most standard lay-in grid and fineline ceilings (Requires Fineline clips, suffix "FCC"). Unit rests on the flanges of the exposed tee. Fine Line clips are supplied on units used in Donn-Fine Line type ceilings. See ceilings and specify type. Knockouts and wiring access plate are provided on back, with additional knockouts on ends for feed and thru-wiring.

FINISH: All steel component parts are completely protected against rust and discoloration after fabrication through an automated conveyorized multi-stage phosphate bonding process. Finished with an electrostatic baked white polyester thermosetting powder coating. This electronic computer controlled integrated system assures consistent 88%+ reflectance efficiency and maximum durability.

CERTIFICATION: The LEGION-AIRE® Series J502 is U.L. and C.U.L. listed and bears the label of the I.B.E.W./AFL-CIO, Local #3. Optionally listed for damp locations "DL".
