

# TASK LIGHTING

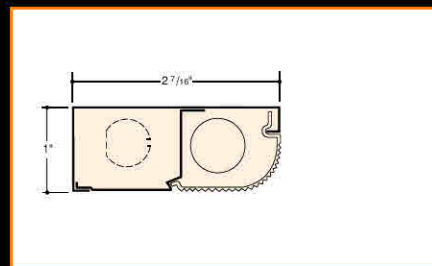

# TASK LIGHTING BY LEGION

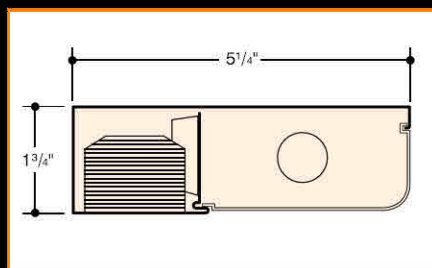

Combining our long experience in the lighting industry with our knowledge of the exact standards of the architectural and the electrical engineering professions, we have designed and manufactured the highest quality and most energy-efficient line of task lighting fixtures possible. These fixtures are ideally suited for use in a variety of situations: under kitchen cabinets, in office work-stations; and in many institutional and other special settings where task lighting is required. LEGION has supplied task lighting for all the US

Military Academies (Air Force, West Point, Annapolis) as well as Universities and Hospitals nationwide. Since the introduction of our original MY-T-LITE, Legion Lighting's selection of task lighting fixtures has expanded to include many more models, among them T8 Octron Lamps and T5 lamps. These lamps, with attractive new features, ensure that the designer can specify a Legion Lighting fixture with the utmost confidence in its ability to perform the task demanded. Whatever your task lighting need, Legion Lighting has a fixture for it.

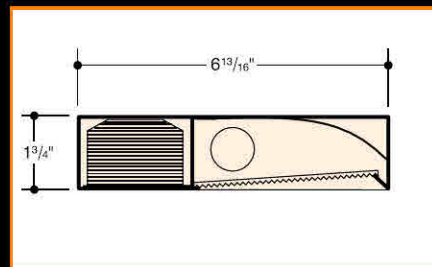

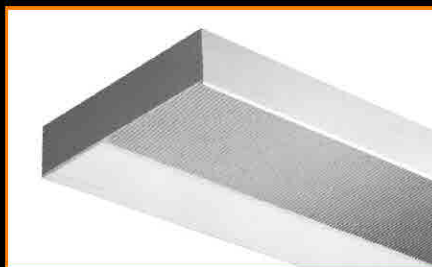

Series  
**311**  
**MINI MY-T-LITE**  
 Clear Ribbed Lens  
 (1) T5 lamp  
 (Legion Catalog Section C, page 99)

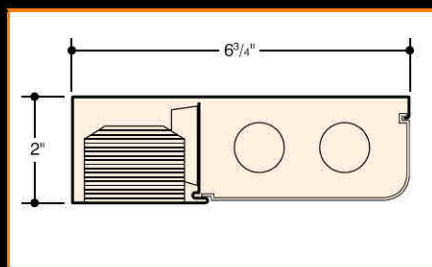

Series  
**312**  
**MY-T-LITE**  
 White Ribbed Lens  
 (1) T8 lamp  
 (Legion Catalog Section C, page 93)

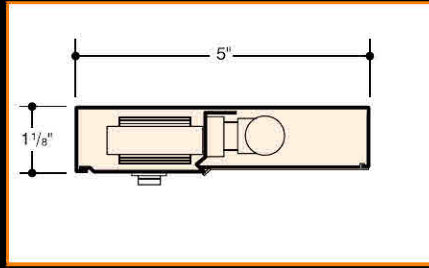

Series  
**316**  
**MY-T-LITE**  
 Clear Bat Wing  
 High Performance Lens  
 (1) T5 or (1) T8 lamp  
 (Legion Catalog Section C, page 91 & 92c)

Series  
**317**  
**MY-T-LITE**  
 White Ribbed Lens  
 (2) T8 lamps  
 (Legion Catalog Section C, page 89)

Series

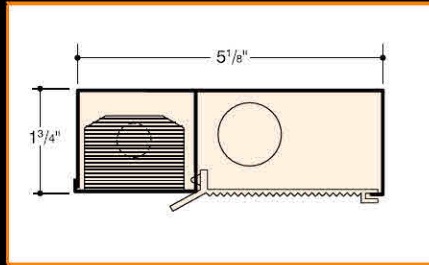

**318**

**MY-T-LITE INCH**

(Legion Catalog Section C, page 95)

Series

**593**

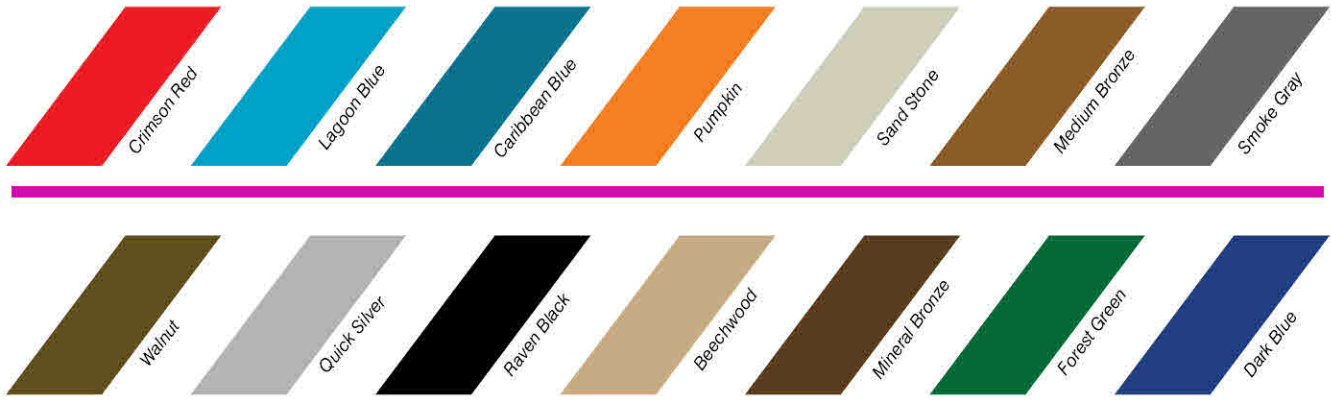

**UNDER SHELF LITE**

Clear Prismatic Lens

(1 or 2) T8 lamps

(Legion Catalog Section C, page 85)

## Legion Finishes

All steel component parts are completely protected against rust and discoloration after fabrication through an automated conveyorized multi-stage phosphate bonding process and are finished with an electrostatic baked white polyester thermosetting powder coating. This electrostatic computer controlled integrated system assures consistent 88%+ reflectance efficiency and maximum durability. Optional powder coated finishes as shown above as well as matching colors are available. Consult factory for minimum quantity order and price.

Some variations between these and actual colors may occur due to the limitations of the 4-color printing process.

## Legion Lighting products are backed by a wealth of design and engineering experience since 1946:

■ State-of-the-Art Manufacturing ■ Custom Engineering through Computers ■ Sophisticated CAD/CAM Computer Designs ■ State-of-the-Art Powder Coating Finishing System ■ Value-Added Lighting Energy Efficient Products ■ Installer-friendly-Easily Maintained Products ■ Responsive Customer Service ■ Comprehensive Product Line ■ UL Listed I.B.E.W.-AFL/CIO, Local #3 ■ Made in the USA ■ Value Pricing ■ Commitment to the Environment for a Better Life ■ Local Agents and Distributors Nationally

Individual engineering technical data sheets are available for each of the products displayed herein. Computerized point-by-point layout and analysis available. Photometrics and/or performance summaries to your particular layout available. Consult factory or your local sales representative.
